

Mīļie audzinātāji!

Šī grāmata ir sagatavota, lai dotu mūsu jaunajai audzei interesantus palīg līdzekļus, mācoties latviešu valodu. Tā neatvieto līdzšinējos mācības līdzekļus, bet tos papildina un dod dažādību bērndārznikiem.

Grāmatas izdevēju mērķis ir mācīt alfabētu skaņas un burtu veidojumus. Katra burta lapa piemērota šī mērķa sasniegšanai. Pazīstamo priekšmetu attēli veicinās sākuma burtu pareizu izrunu. Burtu veidojumus mācās, sekojot numurētām svītrīnām. Papildus lapas domātas vingrinājumiem un atkārtotšanai. Skolas darba pēdējās divas lappuses derēs pārbaudījumiem.

Ar nolūku nepievienojām mīkstināto "r", jo tas netiek lietots mūsu valodā, kā sākuma burts. Plato un šauro "e" skaņu neatdalījām, bet devām piemērus abu skaņu lietošanai.

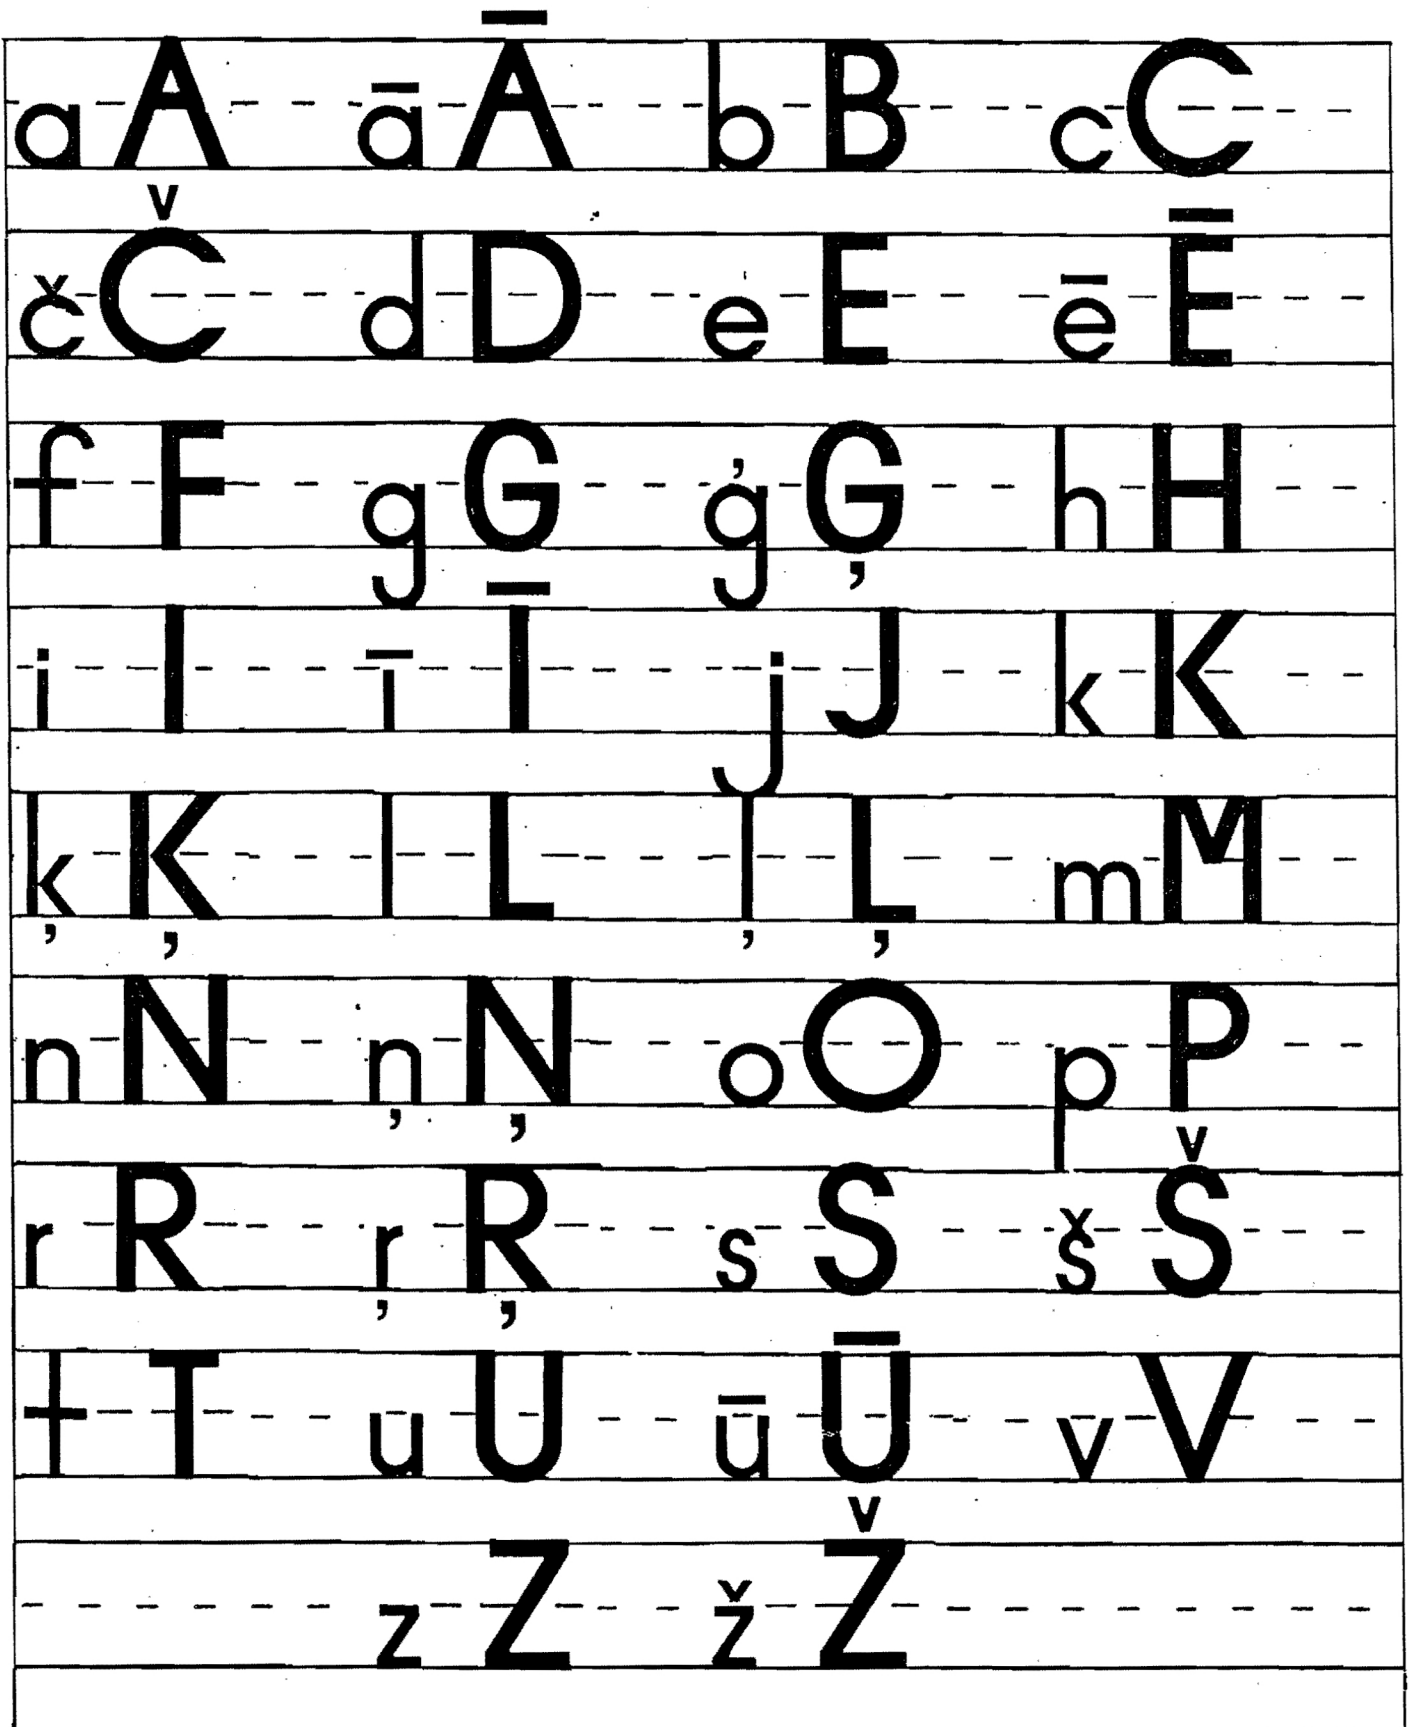

Labas sekmes! Latviešu valodas kopšana ir svarīgākais pienākums mūsu kultūras saglabāšanā.

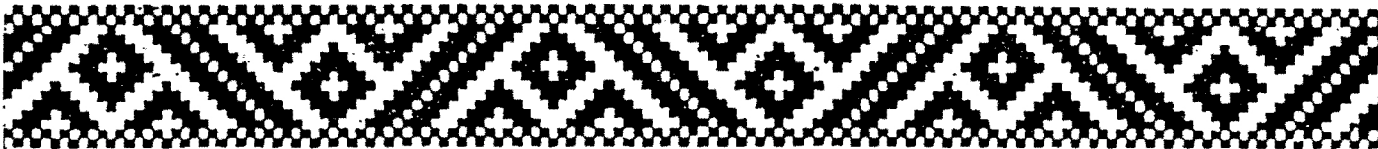

Ike Antona un Iva Bolšteina
